Deployed Operations Resource Management Course (DORMC)

Intent

The intent of the Deployed Operations Resource Management Course is to fix capability gaps in financial management contingency operations and reconstitution areas for training, execution and operations management an oversight. The course would simulate an AOR environment focusing on multinational, combined, and joint operations through situational training scenarios.

Target Audience

- Officers, NCOs, and Civilians that are in units preparing to deploy and conduct Financial Management Operations
- Units/individuals request training prior to deployment
- Curriculum could be integrated and used in FOBC, FCCC, FMBQ, BNCOC, ANCOC, and FA 45 ILE
- Min student load: 8 Max student load: 20

Course Content

- Two week course that builds on what is currently taught in the Resource Manager Tactical Course (RMTC).
- All students would complete RMTC through OES/NCOES courses or via distance learning prior to attending.
- Major areas of instruction:
  - Operational Doctrine (Stages)
  - FM OPORD Development/MDMP
  - Contingency Funding
  - Financial Management Systems
  - Scenario Based Simulation/Exercise

Financial Management Systems

- General Fund Enterprise Business System (GFEBS)
- Program Budget and Accounting System (PBAS)
- Standard Finance System (STANFINS)
- Data Commitment Accounting System (dbCAS)
- Operational Data Store (ODS)
- Accounting Transaction Ledger Archival System (ATLAS)
- Finance and Logistics System (FINLOG)
- Deployable Disbursing System (DDS)
- Case Management System (CMS)
- Force and Organization Cost Estimating System (FORCES)

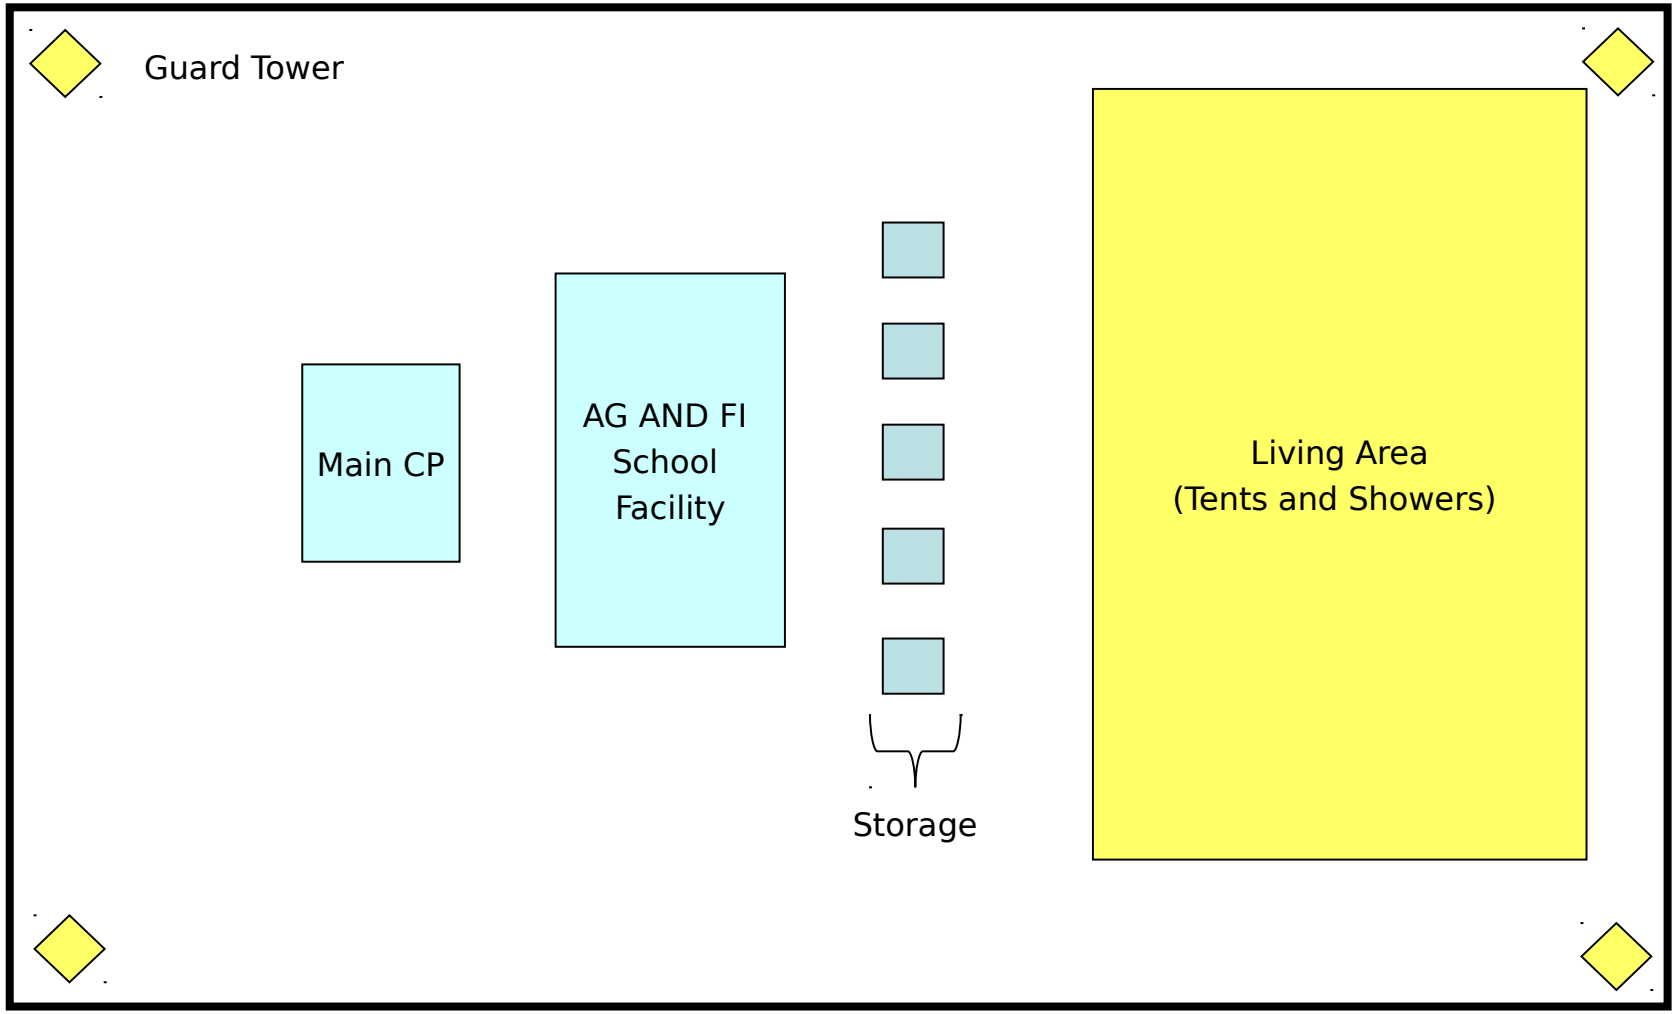
Schedule

- WEEK 1:
  - Operational doctrine (Stages)
  - FM OPORD Development/MDMP
  - Contingency Funding
    - Operational, Security Forces, and Reconstruction
    - LOGCAP/BASOPS
    - Field Ordering Officer/Paying Agent Operations
    - CARB/JARB Process – Requirements Based
  - Systems Training

Schedule

- WEEK 2:
  - Simulation/Scenario Driven Exercise
    - Class is divided up into groups and run through a series of situations
    - Situations will emphasize instruction provided in week one
    - Each student will have an opportunity to work in numerous positions and with the different systems that would be a part of a deployed G-8 office

Forward Operating Base Layout



SCENARIO FOCUSED TRAINING: AIT, BNCOC, ANCOC, FOBC, FCCC, RMTC, FMTC

Financial Mgmt Training Center
UEx & UEy
